

Visiting An Art Museum

Just a few things to remember to make the time pleasant for everyone!

1. **Talk softly:** other people are visiting the museum too and we don't want to disturb them
2. **Try not to walk between another visitor and the piece they are looking at:** you don't want to block their view
3. **Don't touch the art:** your fingers have salts and oils on them that can damage the pieces
4. **Walk don't run**
5. **Stay with the group:** between galleries we will walk together and then in the galleries we can spread out to look at the pieces, take notes, draw etc.
6. **No photographs:** the light from your flash can damage the art
7. **Remember your supplies:** a sharp pencil, eraser, notebook or clipboard to lean on and these printable pages.
